Taxus (Yew)

for Hedges

Richly evergreen and hardy; can be sheared or allowed to grow naturally. [*Plantings by Andorra.*]

THE picturesque, storied Yew (*Taxus*) is one of the most versatile and adaptable of all the Evergreens. It is happy in sunshine or in semi-shade, and, unlike most Evergreens, it thrives even where there is a lack of moisture.

The Yew is equally at home in a modest garden or in a vast estate, and it brings unrivaled beauty to formal and informal plantings.

Deeply green and richly evergreen, the Yew is thrifty, rugged and absolutely hardy. It is disease-free, and insects seldom

attack it. It can be closely clipped or allowed to ramble. In the Fall, its scarlet berries delight the eye and invite the birds; its dense foliage is their winter-haven.

Andorra advocates this most robust, durable and useful of Evergreens for all landscape work; for specimens . . . hedges . . . accents . . . ground cover . . . foundation planting.

Enjoy the year-round beauty of the Yew in YOUR garden!

ANDORRA'S *special offer*—

From our many varieties of YEW, we have selected what many consider to be the most delightful FOUR, and shall be glad to give you, on request, VERY SPECIAL VALUES on :

TAXUS cuspidata fastigiata (Andorra Upright Yew). Erect and densely foliated. For hedges or specimens.

TAXUS cuspidata (Japanese Yew). Compact, rapid-spreading growth. For specimens or foundation plantings.

TAXUS baccata repandens (Spreading English Yew). Low and spreading. For foundation plantings, or in front of taller Evergreens.

TAXUS baccata fastigiata (Irish Yew). Branches and twigs grow upright, forming a dense but slender columnar mass.

We invite you to visit Andorra Nurseries and see the gorgeous plantings of Yew. You can get the finest Taxus at Andorra at *unusually low prices* this Fall. They'll enhance the beauty and value of your home and grounds.

The enclosed card is for your convenience; and there is NO OBLIGATION on your part.
